Work experience

Frontend developer

Craftware.com
[August 2020 → present]

Working in scrum team on global-range application. Being leased to a Swiss-based Company.
Technology stack: Angular, Ionic, Spring, MongoDB, AWS.

Frontend developer

Ankanama.com
[September 2019 → January 2020]

Part-time remote job for few months. Developing new components at ankanama.com using Angular and AWS.

Frontend developer

Beesfund.com
[March 2019 → June 2019]

Working as a Frontend developer for biggest equity crowdfunding platform in the Intermarium. Developing Angular projects, making portfolio websites with vanilla JS, technical troubleshooting.

Skills

Frontend

Angular, Ionic, RXJS, Typescript, Angular Material, NGRX
Bootstrap, Bulma, Git, Material Design

Backend

Django, Flask, NestJS

Databases

MySQL, Firestore, MongoDB

Adobe CC Suite

Photoshop, Illustrator, InDesign, Premiere, After Effects, Lightroom

Projects

Instagram API-based site

www.booktique.pl

Site that gets profile info as .json file and displays it in custom view. Mobile friendly and pixel perfect.

Counsellor website

www.akrajewska.pl

First stage of a bigger project: for now, scheduling visits via phone calls.
Future implementations: a form for scheduling visits, an admin panel, backend

Favorites videos library

www.haladamateusz.github.io/video-app-ngrx/

Application that allows user to store his favorite videos from Youtube and Vimeo in one place simply by putting the video url.
Application is fully responsible. Created using Angular, Angular Material and Ngrx.

Portfolio website

www.haladamateusz.com

Website where my bio is posted on. Including skills, projects and contact. Made with Webpack, Vanilla JS and Bootstrap.

Photography portfolio

www.photo.haladamateusz.com

Website dedicated to my photos. Made with Angular, Firebase and Bulma.

Personal blog

www.vickinestoruk.com

Creating backend in Django 2.1 + MySQL Database
Creating frontend in HTML5 + CSS3 + VanillaJS + Bootstrap 4
Configurating domain & server
Configurating Google Analytics and Open Graph
